

Approved Suppliers: Submarine Forging Suppliers

Please Note:

If the casting is also a BW/SW fitting, Seller shall ensure the BW/SW fitting manufacturer is also on the approved BW/SW fittings supplier list.

Seller shall flow down the substance of this provision to all of its suppliers for the procurement of materials contained within this Pervasive Commodity provision in each sub-tier purchase order.

Manufacturers, Distributors, Primes, & etc. must submit a VIR for approval to use a manufacturer who is not on the Pervasive List. Mechanical (post heat-treat final conditions) and chemical test reports are to be submitted with the VIR for NNS Engineering approval.

Submarine Forging Suppliers

Submarine Forging Supplier Requirements

For Submarine procurements, where EB2678 is invoked, the Seller shall utilize only the suppliers listed on the Buyer's (Huntington Ingalls Newport News Shipbuilding or Electric Boat Corporation) approved Forging supplier list when providing forgings or forgings in an assembly. **Approval is provided for the supplier source, supplier number and location identified as listed. If a location is not listed, that location is not approved.** The approved list of Forging suppliers for Electric Boat Corporation may be accessed using the hyperlink provided at the bottom of the page.

If utilizing a Forging supplier other than one currently on the approved Forging supplier list, a VIR must be submitted to the Buyer requesting approval of the selected Forging supplier. An evaluation will be performed and the VIR will be answered.

In addition to, or in conjunction with, testing required elsewhere in the purchase order, the Seller shall invoke the following requirements on orders for forgings from a forging supplier approved by the Buyer:

- a) Subsequent to forging (and heat treat if performed), material must be physically re-identified with a unique traceability identification to distinguish the revised properties from the original heat number traceability.
- b) Obtain and test mechanical test samples as required in the purchase order, applicable material specification, modification for the material specification, and/or approved forging drawing. Test samples to be physically identified with the forging traceability number.
- c) The forging supplier shall maintain the mechanical test specimens, and their respective test results, as objective quality evidence, subject to audit and further analysis by the Buyer.
- d) Retention of records and specimens shall be in accordance with EB2678.
- e) The material test report for the original heat number must be annotated to reflect the assigned heat/lot number or unique traceability identity number in accordance with EB2678.
- f) Chemical and mechanical test report submittal to the Buyer shall be in accordance with the requirements contained elsewhere in the Purchase Order.

Seller's use of an approved manufacturer does not relieve the Seller of its responsibility to ensure that all technical, service, and Purchase Order requirements are met.

In addition to using one of these approved manufacturers, Seller shall flow down the additional Submarine Forging requirements (slide #2) so that the manufacturer is aware that those additional NNS/EB requirements are applicable.
